Following the release of some new resources from SLSA, the LSOC Executive has elected to use some new course resources in the 2008/09 season and reserve some for State coordinated trials.

To ensure that correct resources are being used this season, Clubs should access resources through the following sources:

LSV Website

Many training resources can be downloaded from this page.

Creata
Training manuals available. Workbooks will be sold with manuals again following a print run currently taking place. LSV can supply workbooks in the interim.

At this stage, training resources should not be accessed through the SLSA secure Resource Library as a number of these resources will not be rolled out in Victoria until the 2009/10 season.
