Life Saving Victoria wishes to remind all clubs and members about the regulations for transporting equipment on Victorian roads.

Some of the craft used in Surf Life Saving activities exceeds the length of vehicles (e.g. Surf Ski’s). The law states that where a load projects more than 1.2 meters beyond the rear of a vehicle, or a projecting load cannot be easily seen by a driver following the vehicle, a brightly coloured flag or piece of material of at least 30 x 30 centimetres must be attached to the rear of the load during the day and a red light attached during the night. *(Regulation 416 of the Road Safety (Vehicles) Regulations 1999).*

Please note that the addition of a trailer does not allow a greater rear overhang on the towing vehicle.

For more information, please see the [VicRoads Rear Overhang Limits factsheet](http://www.lifesavingvictoria.com.au/circulars).
