About the LSV Female Leadership Network

In June 2013 Life Saving Victoria launched the Female Leadership Network (FLN), with a mission to bring females from all facets of the organisation, together to inspire and be inspired, to encourage cultural change through positive leadership, creation of positive female role models and provide females to opportunity to develop, network and share.

The network is open to all females over 18, including both staff and volunteer members. Four years in, the network now has over 250 active members representing 53 lifesaving clubs, with members ranging from aged 18 through to 75 years in a range of roles within Lifesaving.

The FLN continues to grow and provide opportunities to share, network and be inspired by likeminded females, through keynote sessions, member training, professional development opportunities, networking and skills development workshops, state and international scholarships, as well as an ongoing active online presence.
