PRESENTER: MORGAN LANDERS, FOUNDER & PRINCIPAL

Morgan's passion for protecting the vulnerable is second to none. Whilst undertaking a Bachelor Degree in Applied Science (Leisure & Health) through Sydney University, Morgan worked in disability, aged care and children's residential facilities including Stewart House and Royal Far West Children's Hospital on Sydney's northern beaches. From this experience he developed a keen interest in human rights, risk management and the essential professional standards that are needed when working with vulnerable clientele.

From a young age and throughout his eight year front-line career, he developed and facilitated informative peer learning in a range of risk management areas. This resulted in a transition to Project Officer roles in the NSW public service including within the NSW Sport & Recreation - Child Protection & Employment Screening Unit, NSW Commission for Children & Young People and the Office of the Children's Guardian.

Since 2006, he has developed and facilitated insightful and engaging adult learning seminars to a diverse range of industries within the human services and volunteer sectors. His delivery style and risk management knowledge are among his key strengths. Morgan has held recurrent contracts with both the NSW Office of Sport and Queensland Government in Member Protection and Complaint Handling facilitation since 2012.

Morgan continues to be an independent representative on the National Reference Group for Play By The Rules, a role that begun in 2006; has assisted the Australian Sports Commission in risk management, complaint handling and member protection since 2011 and is considered to be one of the leading practitioners in this field.

Morgan holds a Bachelor of Applied Science (Leisure & Health) and Certificate IV in Training & Assessment.
