Oversight and administration

Events must have an appropriate governance structure that incorporates communication of intent to all event authorities, detail of key people involved in the COVIDSafe Event Plan and key processes to plan and deliver COVIDSafe events.

- How will you ensure general governance arrangements are widely understood by all facilitators of the event?
- How will you monitor the Victorian Government’s latest public health advice and incorporate it into your planning?
- How will you ensure that attendees are provided with key public health messages and advice to stay at home if unwell?
- How will you enable clear and detailed record-keeping to facilitate contact tracing?
- How will you assess and mitigate flow on implications to any surrounding local communities?

Attendee management

Arrangements must be in place to ensure physical distancing is maintained throughout the event. All workers and attendees must be screened for coronavirus (COVID-19) symptoms before the event, and first aid plans should incorporate the management of suspected coronavirus (COVID-19) cases.

- How will you ensure that physical distancing requirements are maintained during the event, including when alcohol is being consumed?
- What measures will you put in place to screen for coronavirus (COVID-19) symptoms?
- How will you monitor the number of people at the event at any given time?

Section 3: Cleaning and hygiene

A regular and thorough cleaning schedule must be implemented before, during and after the event with high traffic areas such as toilets and frequently touched objects such as door handles, counters and railings regularly disinfected.

- How will you ensure that adequate provisions are made for handwashing and hand sanitation throughout the event?
- How will you ensure that facilities are readily available throughout the event?
- How will you make sure that frequently touched objects are cleaned regularly?
- How will you make sure shared spaces like bathrooms are cleaned regularly?

Section 4: Workers, vendors, volunteers and contractors

Workers, vendors, volunteers and contractors are essential in operating a COVIDSafe event. They must understand and be responsible for their personal distancing and hygiene practices, and support attendees to behave in a COVIDSafe manner. To enable this, they must undergo appropriate coronavirus (COVID-19) training and have access to suitable personal protective equipment.

- How will you ensure that workers have access to appropriate personal protective equipment, and they receive training in its use? (See <https://www.dhhs.vic.gov.au/infection-prevention-control-resources-covid-19> for further information.)
- How will you monitor the wellbeing of workers during the event?
- How will you ensure adequate physical distancing is maintained between workers and attendees?
- How will you make sure staff have undergone training on COVIDSafe Event Plan requirements for your event/venue?

Section 5: Event-specific COVIDSafe controls

Operational spaces

Events are often comprised of multiple discrete areas and/or spaces. These spaces may be external (e.g. transport hubs, ticket offices, training/practice facilities), front of house (e.g. toilets, retail outlets, grandstands), back of house (e.g. worker areas), or other spaces (e.g. fields of play, stages).

How will you demonstrate in your event plan that you can ensure workers, contractors and patrons can access the parts of the venue or event as required? E.g. 'attendee zones' or 'staff only' sections clearly demarcated.

- **LSV Pool Lifesaving Carnival and Training Sessions all take place at public pools (aquatic facilities). The pool utilised at MSAC is outdoors.**
- The following image provides an overview of the general set up, including spectator area (necessary spectators only), pool area, signage and QR code check in areas.
